**PRESS RELEASE**

Düsseldorf, February 23, 2010

Commissioning by SMS Siemag

**Modernization of the continuous slab caster  
at Jindal Stainless Ltd., India**

SMS Siemag, Germany, successfully modernized a single-strand slab caster for Jindal Stainless, Hisar, Haryana. Start-up was in 2009.

The caster, with an annual production of stainless steel of 500,000 t, was fitted with a hydraulic resonance oscillator and the related technology control system. SMS Siemag also supplied the detail design for a new segment 0 (segment underneath the mold).

The resonance oscillator, with variable oscillation frequency, stroke length and curve shape, guarantees a slab surface of continuously excellent quality. This represents a considerable cost benefit, above all for stainless steels.
